

Job Title: Business Development Manager – IT Services

Location: Wagle Estate, Thane

Department: Business Development Manager

Experience: 3–5 years

Employment Type: Full-time

Job Summary:

We are seeking a results-driven **Business Development Manager – IT Services** to identify new business opportunities, acquire clients, and grow revenue across our IT service offerings. The ideal candidate will have strong experience in selling IT services and building long-term B2B client relationships.

Key Responsibilities:

- Generate new business leads for **IT services** including Web Development, Mobile App Development, Software Solutions, Digital Marketing, and IT Support.
 - Identify, qualify, and convert prospects through meetings, presentations, and proposals.
 - Build and maintain strong relationships with clients, partners, and stakeholders.
 - Understand client requirements and propose customized IT solutions.
 - Prepare proposals, quotations, and commercial negotiations.
 - Coordinate with technical and delivery teams to ensure smooth project onboarding.
 - Achieve monthly, quarterly, and annual sales targets.
 - Maintain accurate records in CRM and prepare sales performance reports.
 - Monitor market trends, competitor activities, and customer needs.
-

Required Skills & Qualifications:

- Bachelor's degree in **Business Administration, Marketing, IT, or related field.**
 - **3–5 years of experience** in **IT services sales / business development.**
 - Proven experience in B2B sales and client acquisition.
 - Strong understanding of **IT services and solutions.**
 - Excellent communication, negotiation, and presentation skills.
 - Experience using **CRM tools, MS Excel**, and reporting dashboards.
 - Target-driven, self-motivated, and customer-focused approach.
-

Preferred Qualifications:

- Experience in selling **Web Development, Mobile Apps, Digital Marketing, SaaS, or Custom Software.**
 - Existing network of corporate clients (added advantage).
 - Experience working with proposal documentation and RFP responses.
-

What We Offer:

- Competitive salary with attractive performance-based incentives.
- Opportunity to work with a growing IT services organization.
- Collaborative work environment with career growth opportunities.
